Career Objective

To get employed to a position that suites my competence, skills, education, experience, and desire; to also work collectively with existing staff and facilities to meet organizational objectives.

Attend Trainings to further develop my skills and experience to further increase my relevance to the organization. To value my life, and the lives of coworkers while at work.

Higher National Diploma In Mechanical Engineering Manufacturing

[The Polytechnic, Ibadan] (Nov. 2018)

► Upper Credit.

National Diploma In Mechanical Engineering Technology

[The Polytechnic, Ibadan] (Nov. 2015)

► Upper Credit.

Experience

NYSC (Engineer/Office Admin) (June;2019 –June;2020)

Transmission Company of Nigeria (TCN) (No 14, Zambezi Crescent, Maitama, Abuja, FCT.)

- Office Admin.
- Field Engineer at TCN Apo Sub-Station, Abuja.

Graduate Intern (Mechanical Trainee) (Dec;2019 –June;2020)

Lafarge Africa Plc. [Elephant Cement] (Line 1, Ewekoro, Ogun State.)

- Engineering Intern in the Mechanical Department.
 - I underwent a thorough training under the supervision of experienced engineers in all the sections within the department. Sections which include: Welding, Mining and Machineries, Raw Material Store, Vertical Roller Mills, Silo/Kiln, Cooling, Cement Mill, Packing Plant, Belt Conveyor and Compressor. Learnt the usage of several Mechanical Tools.

Key Jobs I Worked on:

- Welding and Fabrication of Essential Parts.
- Installation of Crusher.
- Motor and Shaft Alignment.
- Maintenance of Silos' air-slides
- Regular Maintenance of Conveyor (Pan Conveyor, Bucket, and Belt).
- Plant Maintenance (Reclaimer, Stacker, Mill, Kiln, Cooler, Replacement of Bearing, Air-Slides.
- Led the Safety Talk in our Tool-Box Talk (held between 7:45-8:00am).

Class Teacher (September;2017 –February;2018)

Divine Treasure School) (Ojoo, Ibadan.)

- Grade 4 & Grade 3 Class Teacher {where I exercised my multi-tasking skill}.

Intern (October;2015 –October;2016)

Technical Support Unit (TSU) (Faculty of Tech, University of Ibadan)

- Trained in all the sections of the department and was also transferred to an external organization for further training on the basics of Auto-repair. Sections Include: Machine Workshop, Forging, Foundry, Welding (where I spent a quality time learning), Wood Workshop, Automation Lab. I also went on a Tractor Driving Lesson since I was absorbed to TSU by the Agric Engineering Department of the Faculty.

Projects:

- Machining of a Mild steel to my designed blueprint.
- Forging of a Screwdriver.
- Foundry:- Making of Molds, Patterns and Cores for Melting and Pouring.

Intern (SIWES) (September;2014 –February;2015)

Maintenance Department (University of Ibadan)

- General Mechanical Section
 - I was trained as a welder and Fabricator, was permitted to self-coordinate personal projects which were: Barbeque Grill using a Barrel, Adjustable Chain-Wrench, Umbrella Stand, Coal Pot, and I also fabricated my National Diploma Final Year Project there alongside with my team mates (Multipurpose Cabinet Dryer)
